

TRION™

LFP BATTERY | MADE IN GERMANY

The safest, longest-lasting, and strongest battery for your boat. The first of its kind cell-to-pack made in Germany. Trion Expedition “T-REX” Batteries deliver reliable power to start your engine, operate thruster and trolling motors, and keep onboard systems running day and night.

Saving you from worries about dead batteries after winter storage, engine failure when leaving harbor, or outages when you’re offshore. With T-REX, you get a battery engineered for extreme lifespan, a durable design built to handle the harshest marine conditions, and unwavering reliability—so you can set out with confidence, stay longer at sea, and enjoy true freedom on the water.

**A battery that outlasts your boat.
Tough enough for every voyage.**

LFP BATTERY – MADE IN GERMANY

Power, Endurance, and Reliability – All in One Battery.

The T-REX 12.8V 150Ah battery delivers a massive 1,200A peak discharge, giving you the engine-starting power of lead-acid and the deep-cycle endurance of lithium-ion in one dual-purpose solution. With a service life of up to 10 years—compared to just 1–3 years for lead-acid—you'll save big on replacements and labor over the life of your boat.

Designed for extreme marine conditions, T-REX shrugs off shocks up to 150× the force of gravity, with an IP67 certified waterproof case and reinforced internal design. Whether you're firing up your engine, powering thruster motors, or running auxiliary systems for days, T-REX is the battery that keeps you going, year after year. German customer service that never leaves you stranded at the dock.

The T-REX Advantage

[+] Dependable power at sea

Up to 1,200A of peak power straight to your engine, thruster or trolling motor, while keeping your onboard systems running day and night.

[+] Peace of mind built-in

Lithium-Iron-Phosphate technology, a built-in fuse, and smart BMS protection mean you sail with the world's safest battery tech.

[+] T-REX tough

Designed for extreme marine conditions, T-REX shrugs off shocks up to 150× the force of gravity, with a waterproof case and reinforced internal design.

[+] 10+ years of service

T-REX stays with you on the water season after season creating big savings on lead-acid replacements.

[+] Always ready

T-REX delivers dependable starting power, year after year, even after sitting idle all winter.

Trust T-REX
Built in Germany.
Built for freedom.
Built to outlast.
